

PADDLEWHEEL AERATOR

SC SERIES

Descriptions

- * TENMAR SC Series Paddlewheel aerator is greatly improved and produced according to the advanced international model.
- * High quality materials: It adopts whole plastic float, stainless steel transmission shaft, frame and fasteners. It is suitable used in seawater with rust-free effect.
- * Energy saving: It can save about 20% electricity if compare with an old product. The saving cost of energy is larger than the amount of investment cost of paddlewheel aerator during a year.
- * Protect device: There is a protect device inside the electric motor. In case of electricity imbalance or the motor is overheated, it will stop operation automatically.
